

MR3003-3
Appln. No. 10/760,415
Reply to Office Action of 4/29/2004

REMARKS/ARGUMENTS

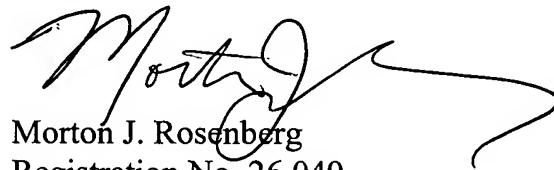

This Preliminary Amendment is being filed concurrent with a Response to the Notice to File Missing Part of Nonprovisional Application mailed on 29 April 2004. The original application was filed in the Chinese language and the response to the Notice to File Missing Parts of the Nonprovisional Application addressed the translation into English.

When the undersigned attorney obtained the translation into English, it was found that there was no Abstract in the Chinese document. We thus, by this Preliminary Amendment, have prepared an Abstract and are inserting it into the subject application.

Additionally, upon review of the Claims in English, it was found that the claims are not in the appropriate form for filing at the USPTO and thus, Claims 1-12 and 14 have been amended and Claim 13 has been canceled.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
